

# 9<sup>a</sup> REUNIÓN DE INVESTIGACIÓN EN HIPERTENSIÓN PULMONAR

VIERNES 28 DE FEBRERO DE 2025

AUDITORIO CEK  
IDIBAPS – Hospital Clínic de Barcelona  
Rosselló, 153. 08036 – Barcelona

Organiza: Línea de Investigación en Hipertensión Pulmonar del CIBERES

# Agenda

---

Bienvenida	09:30-09:40
<b>Dra. María Molina Molina</b> Directora Científica, CIBERES	
<b>Prof. Francisco Pérez-Vizcaíno</b> Director del Programa de Enfermedades Respiratorias Difusas, CIBERES	
<b>Dr. Joan Albert Barberà</b> Coordinador de la Línea de Investigación en Hipertensión Pulmonar, CIBERES	
<hr/>	
<b>Conferencia Invitada</b>	09:40-10:15
▪ Enabling future genomic medicine in pulmonary hypertension by leveraging diverse population-scale data	
<b>Dr. Stefan Gräf</b> Department of Medicine, University of Cambridge, United Kingdom	
<hr/>	
<b>Comunicaciones. Sesión 1</b>	10:15-11:40
<b>Moderadores:</b> Remedios Otero, Jair Tenorio, Diana Valverde	
▪ A new case of a non-mosaic <i>PORCN</i> mutation in two male siblings with severe congenital anomalies overlapping focal dermal hypoplasia	▪ 10:15
<b>Lucía Miranda</b> Instituto de Genética Médica y Molecular (INGEMM), Madrid.	
▪ Pulmonary Arterial Hypertension and <i>NOTCH3</i> Variants. A Genotype-Phenotype study	▪ 10:27
<b>Alejandro Cruz</b> Hospital Universitario 12 de Octubre, Madrid. CIBERCV	
▪ Integration of epigenetics in the etiopathology of pulmonary hypertension	▪ 10:39
<b>Natalia Gallego</b> Instituto de Genética Médica y Molecular (INGEMM), Madrid. CIBERER	

- Severe pulmonary hypertension associated with chronic lung diseases presents dysregulated immunity and complement and coagulation cascades ■ 10:51  
**Adelaida Bosacoma**  
IDIBAPS-Hospital Clínic de Barcelona. CIBERES
  
- YME1L1, a mitochondrial morphology regulator as a PAH novel candidate gene ■ 11:03  
**Bertha García-León**  
Centro de Investigaciones Biológicas Margarita Salas (CIB-CSIC), Madrid
  
- *FLNA* variants in patients with pulmonary hypertension population ■ 11:15  
**Mónica Mora**  
Instituto de Genética Médica y Molecular (INGEMM), Madrid.  
CIBERER
  
- Update and management of the Spanish Pulmonary Hypertension Biobank ■ 11:27  
**Ada Soler-Ventura**  
Biobanc Hospital Clínic de Barcelona-IDIBAPS

---

Pausa - Café 11:40-12:10

---

- Comunicaciones. Sesión 2 12:10-14:00
- Moderadores: Diego Rodríguez, Eduardo Oliver, Gregorio Pérez-Peña
- Enhancing Risk Stratification in Pulmonary Hypertension: Integrating Echocardiographic Parameters with the REVEAL Lite 2.0 Score ■ 12:10  
**Eva Gutiérrez**  
Hospital Universitario 12 de Octubre, Madrid, CIBERCV
  
  - Neoplasia in patients diagnosed with pulmonary hypertension: incidence, management and prognosis ■ 12:22  
**Alejandro Cruz**  
Hospital Universitario 12 de Octubre, Madrid. CIBERCV

- Residual Perfusion Defects In Pulmonary Embolism: The Contribution Of Obstructive Sleep Apnea And Mirna Expression (Nix Study) ■ 12:34  
**Carlos Carrera**  
Unidad de Enfermedades Respiratorias, Hospital Universitario Virgen del Rocío. Instituto de Investigación Biomédica de Sevilla (IBiS)
  
- Comparison of TAPSE/PASP Ratio Measured by Transthoracic Echocardiography and Right Heart Catheterization in Pulmonary Hypertension: Prognostic Implications ■ 12:46  
**Eva Gutiérrez**  
Hospital Universitario 12 de Octubre, Madrid, CIBERCV
  
- Functional Characterization of Pulmonary Endothelial Cells Harvested from Pulmonary Artery Catheter in Pulmonary Arterial Hypertension: Effect of Treatment ■ 12:58  
**Anna Sardiné**  
IDIBAPS-Hospital Clínic de Barcelona. CIBERES
  
- Aging enhances maladaptive cardiac responses and metabolic alterations in PAH ■ 13:10  
**María Jesús Sánchez**  
CIC biomaGUNE, Donostia. CIBERES
  
- Repurposed drugs targeting S1R to enhance Kv1.5 channel activity in pulmonary arterial hypertension ■ 13:22  
**Marta Villegas**  
Universidad Complutense de Madrid. CIBERES
  
- Effects of Physical Training on Mitochondrial Dynamic in Pulmonary Arterial Hypertension ■ 13:34  
**Kelly Casós**  
IDIBAPS-Hospital Clínic de Barcelona. CIBERES
  
- Dysfunction of innate immune receptors in endothelial progenitor cells in paediatric pulmonary hypertension ■ 13:46  
**Ana Conde**  
Universidad Complutense de Madrid.

---

Pausa - Comida 14:00-15:00

---

---

Presentación Fundación Contra la Hipertensión Pulmonar 15:00-15:15

---

Comunicaciones. Sesión 3 15:15-16:55

Moderadores: Angel Cogolludo, Isabel Blanco, Andrés Tenes

- Smoking exposure on diagnosis and survival of pulmonary arterial hypertension and chronic thromboembolic pulmonary hypertension: data from REHAP registry ▪ 15:15

**Karys Khilzi**

Hospital del Mar-IMIM, Barcelona. CIBERES

- Thermodilution vs indirect Fick for pulmonary flow measurement in a model of aorto-pulmonary shunt ▪ 15:27

**Carlos Real**

Centro Nacional de Investigaciones Cardiovasculares (CNIC)  
Hospital Universitario Clínico San Carlos, Madrid

- Comparative Analysis of Circulating Endothelial Progenitor Cells and Resected Tissue-Derived Endothelial Cells in Chronic Thromboembolic Pulmonary Hypertension (CTEPH) ▪ 15:39

**Míriam Peracaula**

Girona Biomedical Research Institute (IDIBGI-CERCA), Parc Hospitalari Martí i Julià

- *In vivo* Metabolic Profiling of Pulmonary Arterial Hypertension Using PET Imaging ▪ 15:51

**Jesús Ruiz-Cabello**

CIC biomaGUNE, Donostia. CIBERES

- The role of ZIP12 in pulmonary vascular remodelling ▪ 16:03

**Lola Navarro-Llinares**

Centro de Investigaciones Biológicas Margarita Salas (CIB-CSIC), Madrid

- Peripheral microvascular endothelial function in pulmonary arterial hypertension: Impact of therapy ▪ 16:15

**Ricardo Aguilar**

IDIBAPS-Hospital Clínic de Barcelona. CIBERES

- Developing of first in class Nitric Oxide-Releasing PDE4 Inhibitors for Class III Pulmonary Hypertension: an animal *in vivo* study

▪ 16:27

**Javier Milara**

Universidad de Valencia. Consorcio Hospital General Universitario de Valencia. CIBERES

- Expression of Kir2 Channels in Pulmonary Vascular Cells and their Role in Pulmonary Arterial Hypertension

▪ 16:39

**Bianca Barreira**

Universidad Complutense de Madrid. CIBERES

---

Conclusiones y Despedida

16:55-17:05

**Dr. Joan Albert Barberà**

Coordinador Línea de Investigación en Hipertensión Pulmonar, CIBERES

---

Con la colaboración de :

**Johnson&Johnson**
